Customized for each make and model of aircraft

Requires no maintenance, and lasts the life of the airplane

Provides unparalleled thermal insulation

Benefits both pilot and passengers

Reduces interior noise by 50-70%

Minimal effect on useful load and center-of-gravity

Meets FAA Parts 23 (Private) and Part 25 (ATP Category) standards for fire resistance, toxicity, and smoke generation

Adapts technology developed for the aerospace and space exploration programs to general aviation for the first time

Affordable for both the smallest plane's owner and the largest fleet operator
